

Team Contract

Team Open Source Fruit Tart (opensourcefruittart@mit.edu)

Elise Xue, Meghana Bhat, Willow Jarvis, Kelly Shen

Project Goals

- we all want A's on the project
- make a web app that is safe from bugs, secure, easy to understand, ready for change
- have fun!

Personal Goals

Meghana:

- Work on skills in back-end and web security
- Collaborate with others on a fun project

Elise:

- Superstar web dev
- Work on an awesome website
- Make a website with 10 million users

Kelly:

- Work with a small team on a very fun project
- Be a git master
- Make good use of everything I learned in 170

Willow:

- Make good, user-friendly web app
- Work well with others in the group
- Participate in the full-development cycle of web app making and learn

Group Roles

- Equal leadership
- Kelly: official note-taker
- Willow: head of design
- Meghana: head of backend
- Elise: head of everything-else
- Heads are in charge of delegating modules of code as needed

Meetings

- Regular weekly meetings:
 - Thursday 10pm, virtual check-in (Google Hangouts), ~30min
 - Sunday 3pm, EC W312, 1-2hours
- Additional meetings as needed
- At every meeting, the team will determine what tasks need to be completed before the next meeting, and distribute the tasks evenly to each team member based on expected completion time.

Communication

- Main mode of communication: Facebook messenger group
- Mailing list: opensourcefrUITtart@mit.edu
- Shared 6.170 Google Drive folder for our meeting notes, materials, etc

Contact Info

- Kelly: kellysh@mit.edu, (603) 520-8078, kellyshenn@gmail.com, 534 McCormick
- Willow: wjarvis@mit.edu, (617) 852-3614, willowjar1994@gmail.com, H301 East Campus
- Meghana: mbhat@mit.edu, (510) 456-6884, mbhatg@gmail.com, W312 East Campus
- Elise: eyxue@mit.edu, (201) 218-3034, dantesepicsneeze@gmail.com, 574 Next House

Enforcement

- Virtual check-in makes sure that people are on-track and aware of each other's progress.
- Each team member is expected to contribute equal amounts of time and effort to the project.
- Each team member is expected to have at least one other member review their code.
- If deadlines are missed, hunt people down in person if delinquent and threaten with water balloons (provided by Meghana).
- In general, the team will closely follow the 6.170 project schedule. Deadlines should not be missed

Conflict Resolution Mode: Consensus-based agreement (CBA)

- Entails presenting propositions with reasons
- Resolved by "agreeing to agree" rather than voting by majority
